Shawn, long but good meeting with [Ex. 6 - Personal Privacy]. Our folks just left [Ex. 6 - Personal Privacy] a little bit ago. They report that [Ex. 6 - Personal Privacy] apple pie is excellent!!!

On the serious side, [Ex. 6 - Personal Privacy] did not ask for resampling. [Ex. 6 - Personal Privacy] described their satisfaction with Cabot's continuing efforts to get [Ex. 6 - Personal Privacy] a functioning treatment system. It sounds like Cabot may have the arsenic levels at the tap under control using a filter. Still working on manganese and sodium. Cabot has also committed to continue with routine sampling to monitor the situation.

T

Thanks, dennis.

Dennis - Could you get me feedback as soon as possible on how it goes with the [Ex. 6 - Personal Privacy] meeting tonight.

Thank you - Shawn

Subject: Dimock - [Ex. 6 - Personal Privacy] Home Visit

Bob & Mathy - Want to send you a quick reminder that our folks are going to visit the [Ex. 6 - Personal Privacy] home this evening. This is the home with the elevated levels of arsenic that had declined having water provided. They had requested that we come out and talk about their results. If they request to get resampled, our folks will be prepared to have them sign the

paperwork on the spot so that we can sample them this week. That would add one more home to the four we that we were already resampling because they are receiving water. Let me know if you have any questions.

Thank you - Shawn
